

ONION IYSV Disease Severity Rating Guidelines

H. F. Schwartz - Colorado State University & L. du Toit - Washington State University, 04/15/05

1 = 1 - 2 small lesions / leaf

2 = 3 - 10 medium lesions / leaf

3 = 11 - 25 medium to large lesions / leaf

4 = > 25 medium to large lesions / leaf

Incidence = % of plants / plot with visual symptoms on 1 or more leaves

Severity = lesion number / size per symptomatic leaf, assessed on 10 randomly selected plants / plot

Resistance Rating = lesion number / size, assessed on 10 symptomatic plants / plot
